Project Name	Project Description	Award
Transform the Joseph G. Caputo Community Center	Transform the Community Center into a state-of-the-art facility for intergenerational recreation and learning that will create opportunities for innovative programming while providing expanded and improved space for STEM and sports for children, adults, and seniors.	\$2,500,000
Build a Multi-Modal Transportation Center to Facilitate Mixed-use Development	Build a multi-modal transportation center to provide approximately 240 vehicle parking spaces, as well as bicycle infrastructure to accommodate parking and charging, to support infill development in downtown and promote decreased reliance on vehicle use. The center will generate renewable energy via a rooftop solar array, and the design will be consistent with the historic character of the Main Street Corridor.	\$2,243,000
Enhance and Expand the Market Square Public Plaza	Design and construct a new public plaza to include seating, new landscaping, a raised stage and kiosks. The public plaza would continue to remain in public ownership.	\$2,000,000
Preserve and Revitalize the Historic Olive Opera House Building	Conduct exterior renovations, restorations and retrofitting of the interior of the building to allow for flexible workspaces, studios and a performance space with modular stage.	\$1,500,000
Enhance Streetscaping in the Station Plaza Neighborhood to Improve Connectivity	Beautify the Station Plaza neighborhood through improved streets, widened sidewalks, bikeability, placemaking, and connectivity between the waterfront and upper Main Street.	\$857,000
Upgrade the Louis Engel Waterfront Park Performance Space	Replace the existing stage with a new, covered state-of-the-art performance space to accommodate performances in inclement weather while drawing locals and visitors to the waterfront.	\$600,000
