- Inclusion of Columbia School of Public Health in data request process for research and development requests
- Development of new Problem Statement and Recommendation Tools for Workgroup use

DISCUSSION:
Preliminary
Report Feedback
and Interim
Report
Development

1. What elements of the Preliminary Report do you strongly support and would want to see replicated in the Interim Report due in January 2024?
2. What would you suggest doing differently for the Interim Report?
3. What can DOH and NYSOFA do in the Interim Report—substantively, procedurally, and structurally—to help shape the recommendations set forth in the MPA?

Problem Statement Exercise

- We have selected 3 problem statements to review in breakout sessions. Each breakout group will discuss the model problem statement assigned to their group.
 - Workgroup: Abuse
 - Workgroup: Technology
 - Workgroup: Mental Health and Substance Abuse Disorders
- Assignment- identify the top 2 priority barriers that you think should be carried over into a recommendation

Breakout Small Group Discussions

- Items to discuss and plan to share with the full group include best practices on the following:
 - How did you prioritize recommendations/barriers to address in your upcoming recommendations?
 - How did you build consensus among the group in your discussion?

Breakout Small Group Discussions (cont'd)

- Following breakout discussions, each group should designate 1 group member to report to the full Committee on best practices for Recommendation prioritization and mediating conflicting opinions

Closing: Master Plan for Aging Timeline
