

A Master Plan for Aging for New York

Stakeholder Advisory Committee Meeting #6/State Agency Council Meeting #6

DECEMBER 7, 2023

Meeting Topics

- Welcome
- Update on Data Requests
- Discussion: Workgroup Recommendations/Interim Report
- Closing

Update on Data Requests

Data Requests

- We compiled every data request we've received from the workgroups/subcommittees

| Submission ID | Created | Completed | Changed | Please choose the rec | What is (are) the question(s) being asked by the sub-committee(s)? |
|---------------|-----------------|-----------------|-----------------|-----------------------|--|
| 676928 | 6/30/2023 12:58 | 6/30/2023 12:58 | 6/30/2023 12:58 | Economic Security | What is the gap between average cost of living and average Social Security payment? |
| 680971 | 7/18/2023 14:31 | 7/18/2023 14:31 | 7/18/2023 14:31 | Economic Security | 1. How many older adults cannot find employment? (Nationally and in NYS) Labor force participation rate has been rising steadily since the 90's and is now up around 25%. 2. How many need to work? 3.How many want to work? 4. Number of full and part time workers by age (5-year increments) to age 70yrs. 5. Include gender and county 6. Most recent year available and previous 5 years 7. Unemployment figures also (understanding they are inaccurate for this age group) |

Data Requests

- **Data collected in our request form includes:**
 - **Submission ID**
 - **Date of request**
 - **Requesting subcommittee**
 - **Questions asked by the requesting workgroup/subcommittee**
 - **Overall goals of the question(s)**
 - **Any recommended data sources**
 - **Any due date needed**
 - **Scale of information – local/county/regional/statewide**
 - **Date range for data**
 - **Accountable staff member**

Data Requests – Follow Up

Data Requests Not Returned: Categories

1. Analysis request
2. Research request
3. Request was not specific enough
4. Data team and/or Agencies do not collect the data requested
5. No partner agency to provide the data as requested

| Submission ID | Subcommittee | Questions not answered | Why |
|---------------|-------------------|------------------------|----------|
| 680971 | Economic Security | 2 & 3 | Analysis |

Recommendations and Interim Report

Interim Report

- **Still in draft form and under review**
- **Executive summary focuses on non-workgroup activity**
- **Second row of recommendation tool included from every recommendation**

First-Round Recommendations

- **35 Recommendations**
- **Every pillar has at least 2 recommendations that fit within it**
- **5 workgroups produced more than one recommendation**
- **4 recommendations include major changes to NY Connects**

First-Round Recommendations (Cont'd)

| | |
|-----------------------|---|
| In-Community Services | Enhance NY Connects with expanded capacity, cultural and linguistic competency, accessibility, and marketing; embed NY Connects into both the community and health care systems |
| PACE | New York State will implement initiatives to increase PACE enrollment by increasing accessibility and awareness of PACE. Includes a NYConnects component. |
| Technology | Expand NY Connects to include a centralized repository of technology resources, trainings, and supports |
| Transportation | Integrate 211 and NY Connects (along with other public resource database and navigation services) with Mobility Management across NYS regions |

Recommendations From Outside the Workgroups

- Create a path for informal caregivers to get credit for their caregiving experience in transitioning to a career in caregiving.
- Lower requirements for experienced professional caregivers to become instructors in training/licensing programs.
- Establish a hotline for older adults who are lonely. Note that some older adults are misusing ambulance services as a response to loneliness.
- Value-based payment (VBP) is a preventative investment. It should be encouraged in several ways: by enforcing penalties against market participants unwilling to participate in VBP models; by leveraging technology to reduce the administrative burdens associated with VBP programs; by supporting industry efforts to extend VBP programs to pharmaceuticals and pharmaceutical companies; and by allowing more flexibility for innovation among payors and providers.

Next Steps for the Stakeholder Advisory Committee

In advance of next Committee/Council meeting:

Review consolidated recommendation table

- What feedback do you have for recommendations you were not part of developing?

Watch for direction on reviewing the Interim Report draft when it is shared.

We will follow up in January with dates for the next Stakeholder Advisory Committee meeting and the next State Agency Council meeting.
