

Ray Hentze, Parent

The common core program is confusing to our children and is useless. we have all come through schools in the past (including the teachers and administration) and I don't think we turned out so bad. I have been in business for a lot of years and I would be hard pressed to hire someone who as it seems now to be Mediocre. This rush to the middle standard will not be good for any student. Maybe it's the bad teachers and the union that should be changes or abolished. As we all know kids start out as a blank slate and they only know what they are taught. Maybe the old way of teacher when teachers actually teach and show up to school our children would be better off. Common Core was adopted for one thing and one thing only, MONEY. Get rid of it and give our kids a real chance to succeed.
