

**Kathy Stivaletti, Parent, Westlake Middle School**

My son is an 8th grade honor student. He received a 96 on 7th grade English and thus far has a 98 average in 8th grade English. The Common Core grade he received was a 2. Clearly there is a serious discrepancy on what is reality and what is expected from this Common Core program. It must be re-evaluated. My child's spirit is crushed. Your test basically said he is an illiterate honor student.
