Statement: What will be done to ensure that disenfranchised communities are accurately counted? I live in Hempstead, which is in Nassau County. I am a former Hempstead Public Schools Board of Education Trustee. During my tenure I requested a printout of student enrollment by street address. No names, simply, how many adults registered children from each address? The average one and two bedroom apartment revealed 2 to 3 families had children enrolled in school; and the average one family home indicated 3 to 4 families had children enrolled in school.

That said, has a plan been developed to capture the additional families in one family dwellings?
