Hate Crime in New York State 2016 Annual Report

by Brian Denvir

Hate crime incidents in New York State increased 18.9 percent in 2016 compared to 2015, reversing a two-year decline. The 598 incidents reported to law enforcement agencies are the most in a single year since 2013 but significantly below the five-year high of 734 in 2012.

Reported hate crimes represent only a fraction of the state's overall reported crime, which dropped to an all-time low in 2016, when a total of 375,962 Index crimes were reported to police.

Hate crimes target individuals, groups of individuals or property because of a perception or belief about race, ethnicity, gender, sexual orientation, religion or other characteristic defined under law. While small in number, these crimes impact more than the specific target and as a result, have a detrimental effect on the quality of life and safety of all New Yorkers.

The New York State Division of Criminal Justice Services (DCJS) is statutorily required by the Hate Crimes Act of 2000 to annually publish a report detailing a statistical analysis of these incidents.

This report contains hate crime incidents for 2016 reported to DCJS by police departments and sheriffs' through the Uniform Crime Reporting system as of August 28, 2017. It also details hate crime arrests reported by those agencies and dispositions provided by the courts; both data sets are derived from the Computerized Criminal History (CCH) system at DCJS.

This report details:

- Hate crime incidents by offense, bias motivation and demographic characteristics, such as age and gender of known offenders.
- Arrests made in 2016 for one or more offenses charged as a hate crime.

This report also contains:

- An analysis of hate crime arrests that resulted in a criminal conviction or youthful offender adjudication for the five-year period from Jan. 1, 2012 through Dec. 31, 2016.
- Five years of hate crime incidents for each year from 2012 through 2016. These trends are detailed in five appendices to this report.

Major Findings

- ◆ More than half (53.2%) of the 598 reported hate crimes targeted property and 46.8 percent targeted people.
- ◆ Hate crimes against property (318) increased 39.5 percent and crimes against individuals (280) increased 1.8 percent.
- ◆ Consistent with prior years, the most frequently reported bias motivations for hate crimes against property were anti-Jewish (60.7%) and anti-black (13.5%).
- ◆ The most frequently reported bias motivations for hate crimes against individuals were anti-gay male (26.1%), anti-Jewish (17.5%), anti-black (11.4%), and anti-Islamic (10.4%).
- ◆ Most hate crime incidents involved criminal mischief (48.2%) and simple assault (34.6%).
- ◆ The most common hate crime arrest charges were aggravated harassment (39.3%) and assault (27.4%).

Additional information about hate crime reporting is available on the Statistics page of the DCJS website: www.criminaljustice.ny.gov.

Reported Hate Crime Incidents

Under New York’s Hate Crime Law (Penal Law Article 485) a person commits a hate crime when a designated offense is committed targeting a victim because of a perception or belief about their race, color, national origin, ancestry, gender, religion, religious practice, age, disability or sexual orientation, or when such an act is committed as a result of that type of perception or belief. These crimes can target an individual, a group of individuals or public or private property.

Table 1 details hate crime incidents reported by Uniform Crime Reporting (UCR) categories, used by the FBI to allow for uniform reporting across all 50 states. Appendix 4 details the New York State Penal Law crimes that correspond to the FBI’s UCR categories.

Table 1. Hate Crime Incidents by Offense Type 2016

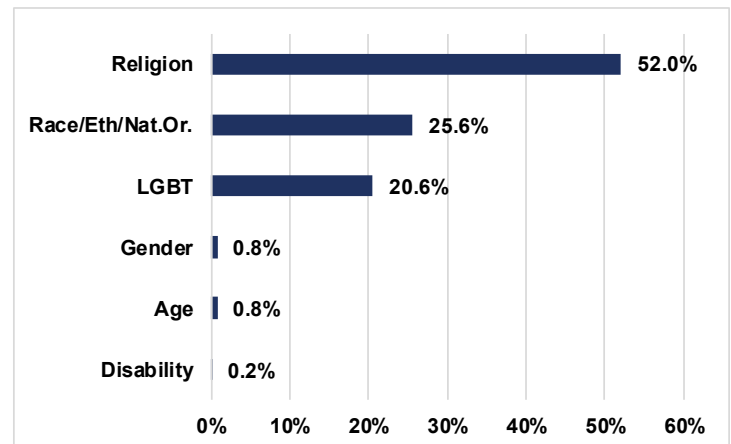

UCR Offense Category	Number	Percent
Total	598	100.0%
Crimes Against Persons	280	46.8%
Rape	1	0.2%
Robbery	13	2.2%
Aggravated Assault	59	9.9%

Property Crimes	318	53.2%
Burglary	12	2.0%
Larceny	11	1.8%
Arson	7	1.2%
Criminal Mischief	288	48.2%

- Of the 598 hate crimes reported, 318 (53.2%) targeted property and 280 (46.8%) targeted individuals.
- Criminal mischief (288) accounted for 48.2 percent of all hate crimes and 90.6 percent of property crimes.
- Simple assault (207) accounted for 34.6 percent of all hate crimes and 73.9 percent of crimes against individuals.

Investigating officers are responsible for identifying an offense as a hate crime and specifying the bias motivation when reporting the incident.

Figure 1 shows the percentage of hate crime incidents reported by major bias type.

Figure 1. Percentage of Hate Crime Incidents by Major Bias Type 2016

- More than half — 52 percent — of all incidents involved an anti-religious bias, with 311 incidents reported.
- Race/ethnicity/national origin was the bias motivation in 153 incidents (25.6%) and LGBT was the bias motivation in 123 incidents (20.6%).
- Five-year trends for all hate crime bias motivation types are detailed in Appendix 1.

Table 2 shows bias motivation for crimes against individuals and property crimes for the 598 hate crime incidents reported in 2016.

- The most common bias motivation was anti-religion, with 311 hate crimes reported. Anti-Jewish crimes accounted for the overwhelming majority of those incidents: 242. Anti-Jewish crimes also accounted for 40.5 percent of all hate crime incidents.
- Anti-black bias accounted for nearly half (75 of 153) of the incidents involving anti-race/ethnicity/national origin bias and 12.5 percent of all reported hate crimes.
- Anti-LGBT bias accounted for 20.6 percent of all reported hate crimes.

Crimes Against Persons

- Bias against LGBT was the most common bias type in crimes against persons with 103 incidents (36.8%) reported. This was followed by race/ethnicity/national origin, 88 incidents (31.4%) and religion, 83 incidents (29.6%).
- Gay men (73 of 280) were the most commonly targeted individuals, followed by Jewish (49) and black (32) individuals.
- Within the anti-religion category, anti-Jewish bias (49) and anti-Islamic bias (29) accounted for 78 of the 83 incidents.

Note: Totals in this table may not equal 100 percent due to rounding. In addition, the percentage for each specific bias type under each bias motivation category (i.e. Transgender, Black, Jewish) relates to the total number of all reported hate crimes.

Property Crimes

- Of the 318 reported hate crime incidents targeting property, 71.7 percent (228) were motivated by a bias against religion, and 20.4 percent (65) were motivated by a bias against race/ethnicity/national origin.
- Anti-Jewish bias was most commonly reported in incidents targeting property: 60.7 percent (193 of 318 incidents).

Offenders as Reported by Their Victims

Reporting of offender demographic characteristics by the victim or another party is often incomplete, partly due to the fact that some hate crimes involving property do not involve direct contact between the target and perpetrator.

At least one type of offender demographic — gender, age or race/ethnicity — was reported in 275 incidents. Those incidents involved a total of 310 offenders because a single incident can involve multiple offenders.

Table 3 presents the gender, age and race/ethnicity of offenders as reported by the victim or other party of the 274 incidents.

Table 3. Gender, Age, and Race/Ethnicity of Known Offenders 2016

- The gender of 293 offenders was reported; the vast majority were male (254 of 293).
- Age was reported for 229 offenders. Among those individuals, 76 percent were 39 years old or younger: 95 were between the ages of 25 and 39 and 80 were younger than 25.

- Race/ethnicity was reported for 275 offenders: 41.3 percent black, 31.3 percent white and 15.5 percent Hispanic. The race of 11 percent of offenders was unknown.

Table 4 presents the number of offenders involved in the 275 hate crime incidents.

Table 4. Number of Offenders per Incident 2016

Three	3	1.1%	9	2.9%
Four	3	1.1%	12	3.9%

- The majority of incidents (90.5%) involved one offender.
- Two or more offenders were reported in 26 incidents (9.5%), with a total of 61 offenders involved. Of the 26 incidents, 20 involved two offenders, three involved three offenders, and three involved four offenders, which was the most reported for any one incident.
- The most common offenses involving known offenders were simple assault (142 or 51.6%) and aggravated assault (53 or 19.3%).

Unknown Offenders

- There was no information reported about the number of offenders involved in 323 of the 598 reported hate crimes. Of those 323 incidents, 251 (77.7%) involved crimes against property.
- The majority of incidents with unknown offenders were criminal mischief (238 or 73.4%) and simple assault (65 or 20.1%).
- Of the incidents with unknown offenders, 54.2 percent (175) were motivated by anti-Jewish bias.

County of Reported Hate Crime Incidents and Arrests

Table 5 details hate crime incidents and arrests by county.

Hate crime incidents and/or arrests were reported by law enforcement in 42 of the 62 counties in New York State. Law enforcement agencies reported no incidents or arrests in the remaining 20 counties; those counties are excluded from the table below.¹

Arrests represent a hate crime charge being brought at the time of the arrest, as reported to DCJS by the arresting agency. The number of reported hate crime incidents and arrests in a given year should not be compared: not all hate crime incidents in a given year result in an arrest; arrests can occur in a different year than the associated crime; and one incident can involve multiple offenders.

- Law enforcement in the five counties that comprise New York City — Bronx, Kings, New York, Queens and Richmond — reported 62 percent of all reported hate crime incidents in the state and made 62 percent of all hate crime arrests.
- In the Rest of State, 65 percent (134 of 206) of incidents were reported by law enforcement from four counties: Nassau, Suffolk, Erie and Westchester.
- Police departments or sheriffs' offices in five counties made one or more hate crime arrest, but reported no incidents: Rensselaer, Onondaga, Warren, Fulton and Delaware.

¹ The following 20 counties reported no hate crime incidents or arrests in 2016: Cattaraugus, Chautauqua, Columbia, Cortland, Genesee, Greene, Hamilton, Herkimer, Lewis, Ontario, Orleans, Putnam, Schuyler, Seneca, Steuben, Sullivan, Tioga, Washington, Wyoming and Yates.

Hate Crime Arrests

New York State Penal Law Article 485 details the offenses designated as hate crimes.

Table 6 shows the most serious Penal Law offense charged as a hate crime for the 234 arrests made in 2016. Of those, 39.7 percent were offenses against public order and 36.3 percent were assault and related offenses.

The most common hate crime arrest charges were second-degree aggravated harassment (67), a misdemeanor; third-degree assault (43), a misdemeanor; first-degree aggravated harassment (25), a felony; and second-degree assault (20), a felony.

This table also groups arrest charges by the corresponding Uniform Crime Reporting (UCR) category. As noted on Page 2, the FBI defines these categories.

Dispositions of Hate Crime Arrests

The processing of cases in criminal court often takes several months to be completed and can result in a wide range of dispositions.

Dispositions by Crime Type

This section only details hate crime arrests resulting in either a criminal conviction or youthful offender adjudication² for the five-year period from 2012 through 2016. The term adjudication is used because the case is sealed and details of the case are not permitted to be disclosed, except under limited circumstances defined by law.

The courts reported a total of 400 convictions and youthful offender adjudications to DCJS between 2012 and 2016.

Table 7 details crime type (felony or misdemeanor) and notes whether the conviction or youthful offender adjudication was for a hate crime or another Penal Law crime.

Table 7. Disposed Hate Crime Arrests Resulting in a Conviction 2012-2016

Disposition	Disposition Charge Type		Grand Total
	Hate Crime	Not Hate Crime	
Conviction - Felony	44	73	117
Conviction - Misdemeanor	63	176	239
YO adjudication	16	28	44
Total	123	277	400

- There were 239 dispositions that resulted in a criminal conviction for a misdemeanor, 117 for a felony and 44 in youthful offender adjudications.
- Of all dispositions, 123 resulted in convictions or youthful offender adjudications to a hate crime offense. The remaining 277 dispositions were for an offense not designated as a hate crime.
- Of the 277 non-hate crime dispositions, 73 (26.4%) were felony convictions and 176 (63.5%) were misdemeanor convictions.

Disposition Charges

Table 8 shows the most serious charge for the 400 hate crime dispositions resulting in a conviction or youthful offender adjudication, as reported for the five-year period from 2012 through 2016. These charges are grouped by UCR category.

Table 8. Criminal Convictions and YO Adjudications for Hate Crime Arrests by UCR Offense Category 2012 - 2016

Other Offenses	1	35	36	9.0%
Other Fingerprintable Offenses	1	34	35	8.8%
All Other Offenses	0	1	1	0.3%

- Of all dispositions, 62 percent involved crimes against individuals (248). The majority of these convictions were categorized either as simple assault (184) or aggravated assault (41).
- Property crime offenses were involved in 27 percent of dispositions. The most common property crime convictions were criminal mischief (57) and larceny (27).
- Disposition charges by Penal Law are further detailed in Appendix 5.

² Offenders age 18 and under at the time of crime may be adjudicated as youthful offenders (see Criminal Procedure Law 720.10). A youthful offender (YO) adjudication broadens sentencing options and seals the criminal record.

Sentences for Convictions and Youthful Offender Adjudications

Table 9 presents the type of sentence imposed by the courts for the 400 convictions and youthful offender adjudications.

Table 9. Sentences from Hate Crime Arrests 2012 - 2016

Of those convicted:

- 77 (19.3%) were sentenced to state prison,
- 149 (37.3%) were sentenced to jail,
- 55 (13.8%) were sentenced to local probation, and
- 80 (20%) were sentenced to conditional discharge.

Youthful offender adjudications are sealed but individuals can serve any of the sentence types noted.
