

Alex Alcantara, Parent

"Dear Mr Govenor,

It is incredible to me that we would be teaching our kids common core. It's terrible! ! They learn how to count by boxes?? I hear of parents spending hours with there kids doing homework every night. My daughter is in first grade I would strongly consider home schooling her if N.Y. state continues with its common core curriculum. I see examples already for which I do not agree. I pay the highest taxes in the nation in Westchester County, all for good education. With common core it's just not worth it!

Sincerely, Alex Alcantara"
