

Cindy Binnie, Parent

Please take the time to listen to teachers and students about how the implementation of the current learning standards are affecting our schools. Children need to feel safe and comfortable in order to be able to learn. This high stakes testing has led to an environment of high anxiety (for everyone) and is not conducive to learning. Holding our students and teachers to high expectations are understandable, but should be attainable. PLEASE include teachers in the creation of standards, their implementation and their measures of success.
