

Khem Caigan, Parent, ZAPGARDEN

Common Core is an abomination, openly flouting outstanding federal laws that prohibit federal entities from influencing or controlling curriculum or instruction.

Common Core was instituted by greedy bureaucrats on the make for cash (Gates Foundation as well as the US Department of Education),and has no hard data to support it.

Common Core is failing, not only because of the billions wasted in its implementation, but because of the flagrant indifference to students and teachers, and to the democratic process.
