Downtown Central Islip was selected as the winner of the \$10 million Downtown Revitalization Initiative (DRI) in the Long Island region. New York State's Downtown Revitalization Initiative seeks to "transform communities ripe for development into vibrant neighborhoods where the next generation of New Yorkers will want to live, work, and raise a family." State funding can be used to fund eligible capital projects that have the potential to spark economic vitality and generate growth in downtown, including projects that:

- Strengthen the Carleton Avenue corridor
- Enhance connections to the Central Islip LIRR station, and
- Create opportunities for transit-oriented development.
