

Kathleen Cooper, Parent

"I think it's time to realize that common core has ruined the first 5 years of my sons schooling. Testing Kindergartens before even teaching them anything is abusive. Your whole curriculum is abusive, I feel you people have no idea you are ruining so many childhood, including my 9 year old's. . You should be educating our kids about agriculture,there should be healthy eating but that's not happening either in schools. All processed crap .Take a moment of your time and look how Finland educates their children. They use play to educate not tests! You could learn A LOT from Finland Education!

Common core is destroying our children's childhoods across our state and it's time to dismantle it and put our children first.

I have a daughter who is a Senior in College, at the top of her class. I am so glad she had a normal childhood before this common core came along.

My son is stuck in a system that does not work. Time for a change!!! You are sucking the life out of our kids with this backwards way of learning and, I AM DONE with you . I feel you all should be fired and we need a committee who cares about our kids not about statistics and company influences.

Our Children deserve better! Communist Core is not working!!!! Yes I said Communist Core!!!! My child deserves better!!!!

Time to get rid of this black cloud and let the teachers be creative and teach! Enough with the testing! My son will opt out every time.

So disgusted with Cuomo for letting our schools turn to crap.

Get rid of Common Core! NOW!!!

Sincerely,

Kathy Cooper"
