

Marykay Flett, Parent

I love the standards for the most part. I feel the students can do these. HOWEVER!!!! It should never have been implemented the way it was. When we make the changes, we MUST make certain we implement this GRADE BY GRADE, not all at once. My daughter is in 11th grade and is being forced to take 2 end of the year tests. And ranking teachers ability to teach on a single test is preposterous! (even if it is 3 long days..) That is like rating the effectiveness of a doctor based on the one test he orders and how well or poorly the tech processes it.
