

Jesenia Samantha Sanchez, Student

"To Whom it may concern,

My name is Jesenia Sanchez and I am 15 years of age, a gold star kid and sophomore student. I look fine like every other kid, but I am a brain tumor survivor) now with a 2nd tumor),with many other serious medical issues. Brain surgery+brain injury= deficits. Common core is marginalizing disabled students like myself and its making me very depressed and leaving me feeling like I will never be good enough or have good enough grades to get into a decent College. At this rate, I will be forced to drop out, because I cannot pass the Math. All common core has done is widen the gap between general ed and Special ed. It is ruining lives and no one is doing anything about it and you know why?People that are for common core obviously never had a disabled child and don;t care nor understand it. I am not stupid, but I learn differently and common core is not allowing me to reach my full potential. So I am not asking, but am begging to please opt out of Common core.
