

Deborah Torres Henning, Parent, NY Guardians

"How many task forces, commissions, committees, forums, hearings, will they have before they realize they can't keep up this charade? CC and all of its tentacles, stinks to high heaven. It's rotten to the "core" and it must GO! But Cuomo Insists on this charade of commissions, and we're supposed to trust them after Moreland? What a joke! They hear the same thing about getting rid of CC and testing each time they have one of these meetings yet they keep having them expecting to hear something different from the stakeholders in our children's futures? Parents and teachers are calling for him to kill it and he keeps bringing out the paddles to keep it alive. ENOUGH! Admit failure, admit this is abusing our children and teachers, and get rid of it!"
