

Tatiana Walker, Parent, PS116

If my child didn't have private tutoring, I don't think that she would have received 4 in math and 3 in ELA. All my friends' kids who didn't have private lessons to prepare for the test, got 2s. Also, some schools were given after school preparation for the test and that worked perfect. My friend's kid got after school tutoring from PS 40 for free and she excelled on the test.
