

Crystal Windover, Parent

"I have a child in 8th this year at vvs. She was getting good grades in all of her subjects. Since this common core has started her math score has declined. Her attitude towards school is negative. I also have many nieces and nephews in Utica schools. They now hate school and don't want to go anymore. All kids learn differently and there was nothing wrong with the curriculum before. It was good enough for us adults and made sense. I think it needs to go asap!"
